"Empowerment through quality technical education"
AJEENKYA DY PATIL SCHOOL OF ENGINEERING
Dr. D. Y. Patil Knowledge City, Charholi Bk., Via. Lohegaon, Pune – 411081
Imparting quality education in the field of Artificial Intelligence and Data science.
Department of Artificial Intelligence and Data Science Engineering

ACADEMIC YEAR: 2026-27	
SUBJECT: PCC302AID:Machine Learning	
CLASS: TE-C	**SEMESTER:** V
CASE STUDY TITLE: Type your title here	
NAME OF STUDENT:	
ROLL NO:	
DATE OF SUBMISSION:	
NAME AND SIGN OF SUBJECT INCHARGE: Prof. Ashima Mahendra	

1. Title

Write your case study title here

2. Real-World Problem

- Background
- Problem faced
- People/organization affected
- Need for a solution

3. Role of Machine Learning

- ML problem type
- How ML can address the problem (explain in detail)
- Input/features
- Expected output
- Why ML is suitable

4. Data and ML Techniques

- Possible data source
- Important features
- Expected output
- ML paradigm (explain in detail)
- Suitable algorithms (explain in detail)
- Relevant evaluation measures

5. Applications, Benefits and Limitations

- Real-world applications
- Benefits
- Challenges/limitations
- Ethical/social/environmental considerations

6. Conclusion

Summarize the problem, ML approach and expected impact.

CO Mapping:
PO Mapping:
SDG Mapping:

IMPORTANT: Since this is a **descriptive case study**, make sure that:

No programming implementation is required. Students are expected to study, analyze and describe the application of Machine Learning to the selected real-world problem.
